Sampling distribution of $\bar{X}_n$, n=1
theoretical mean = 0.5
Density
$\bar{X}_n$
Sampling distribution of $\bar{X}_n$, n=5
theoretical mean = 0.5
Density
$\bar{X}_n$
Sampling distribution of $\bar{X}_n$, n=25
theoretical mean = 0.5
Density
$\bar{X}_n$
Sampling distribution of $\bar{X}_n$, n=100
theoretical mean = 0.5
Density
$\bar{X}_n$
